

In SFY 2019

Regions 3 & 4 completed the social emotional training of staff, testing **90%** on training exams. Performance for Module 1 fell slightly below the goal.

SSIP Is Making a Difference!

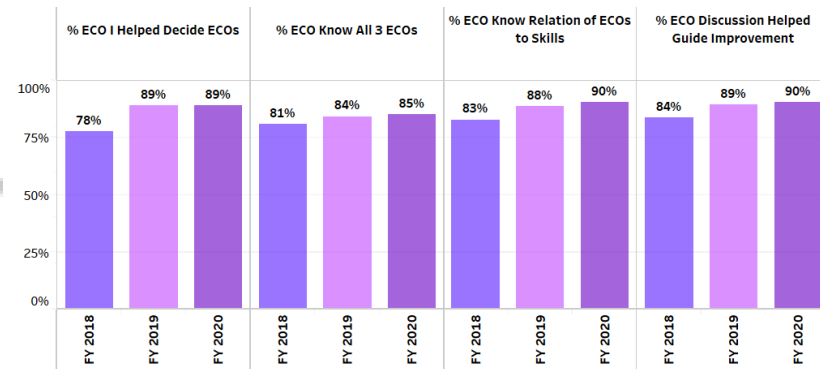

SSIP Newsletter
June 2020

Families are Noticing...

91%

of families reported understanding how to support the social emotional development of their child

Families report benefits from improved ECO practices

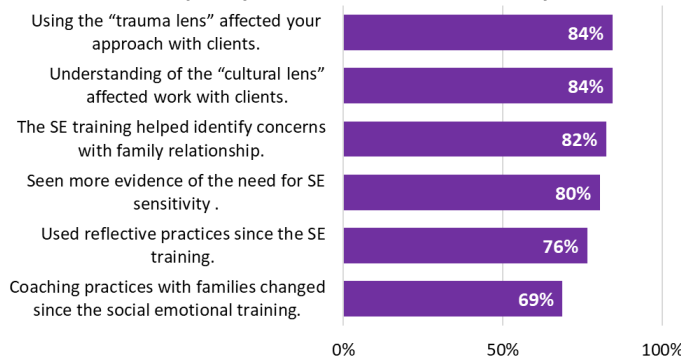

92%

had embedded social emotional practices into their work with children and families six months after the training

Between 7 and 8 in 10 also reported at least moderate changes in specific aspects of their practice because of the SE training.

Proportion Saying SE Training "Moderately" "Greatly" or "Completely" Affected Practice in these Ways

Statewide, families' **involvement** in determining the ECO ratings increased dramatically from SFY 2018 to 2019 and held steady since then. A similar pattern is seen in family's **awareness and understanding of the ECO processes** (last three measures).

Next Steps

- ❖ Continue Evidence Based Practices
 - *Complete Pilot in July and report operation and fidelity findings to drive scale-up of a feasible and effective system
 - *Deploy the ten FIP-EI Certified mentors to expand EBP fidelity measurement and reporting statewide.
 - * Finalize and implement plan for the remaining three EI EBP practitioner training tracks
- ❖ Report COVID impact statewide for ECOS and ECO Fidelity for East Hub
- ❖ Learn families' advice about how to improve their Infant Toddler experiences.

Regions 1-4 completed the fidelity review. They achieved **89%** fidelity across both Entry and Exit: **93%** Entry fidelity, **93%** Exit fidelity.
